

T. 9/2/25

| Line | Description                                                                                            | Quantity |
|------|--------------------------------------------------------------------------------------------------------|----------|
| 1    | complete axial piston pump (PV102R5EC02) PH 1 Jacking Pump for PH1 GT Oil Lifting Pump<br>PV023R1D1VMC | 4        |
| 2    | Coupling for Jacking pump of Ph1+2 GE 9E units HBE Type: 42/55 GG                                      | 6        |
| 3    | Elastomer spider for Jacking pump coupling of Ph1+2 GE 9E units HBE Spider Type: 98 0 Shore A          | 30       |
| 4    | Bellhousing for Jacking pump coupling of Ph1+2 GE 9E units HBE Type: 350 A-204                         | 2        |
